

Cheer total to the end of May 2017: 179523 bits so ~\$1795.23

An important note: in early March DSP enabled "tipping" aka direct PayPal donations. These obviously aren't noted in chat & might only be noted on video if they occur during a stream.

No way to track them reliably so this means DSP is taking in more than it appears.

After someone used a streamlabs cheering emote in March 2017, doing some research I found out beyond cheer/kappa/kreygasm/swiftrage there's also streamlabs & muxy ones: <http://i.imgur.com/B21oNRQ.gif>
I have checked through all logs to this point & I've missed none of these cheers.

First sign of custom cheermotes on 20170526:

[12:29] <deadshot_robin_player> trihard10 Why is your headset mic down, my dude? Bonus meme: YEE

[20:29] <smartweirdo95> mrdestructoid100 mrdestructoid100 mrdestructoid100 mrdestructoid100
mrdestructoid100 phil i have 5 hoes, but i only need 4. how do i decide which one to get rid of?

Fortunately with the following "bits=####" searching method they didn't slip through.

20170525 <https://blog.twitch.tv/moar-cheermotes-out-now-b7644b3f6af6> "Introducing the seven new Cheermotes" "4Head, PJSalt, MrDestructoid, TriHard, NotLikeThis, FailFish, and VoHiYo."

I have checked through all logs to this point & I've missed none of these cheers.

Thanks to my alternate client needed to log resubs, I can confirm that these cheers went through by checking for a "bits=####" portion. Example for the first cheer for 100 bits:

[15:03] <abegamers> cheer15 Phil to be frank, your following is not *that* big and so I doubt your haters can be that much bigger, so I don't see how they could cause enough backlash to turn MCNs away from you

content is TOP QUALITY. You're doing a great job keep up the good work. Dont listen to what they say about you man you rock and don't let it get you down. You're the best. Keep it up. Just remember to keep in mind that no matter how hard you try you arent gonna please everybody all the time but you sure pleased yourself that one time on stream. :)

[13:10] <g33krom> cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 cheer1 You should lock all the doors that lead to out and get used to using the windows to traverse in and out of cabins. That icon you saw also is for the police. If you see a house with a big ass white and orange antenna inside that house is a radio to call Tommy Jarvis.
